Provided by ACAC

Tutor John Harding
Terracotta clay for your maquette
Other sculpting tools and materials
Grey cement and accelerator
Chicken wire
Potting mix for adding to concrete for the hypertufa effect
Tea, coffee, hot chocolate, biscuits.

Please bring

A spritzer for water
A trestle table / platform to work from – not your best coffee table; this will get messy!
A large tarp – big enough to cover your working area underneath your table
Rubber gloves – cement is very hard on the skin
Cotton rags to keep your sculpture damp and for your hands
An old bucket for your concrete – one of those bendy sorts, 3 times as big as a normal bucket is ideal
Another normal sized bucket for water
A lot of old newspapers for stuffing your wire shape with, prior to applying the concrete
Wooden sticks to stir your concrete in your bucket
something to share for lunch.

I understand and accept the above terms and conditions.
